

# Architecture - Retail

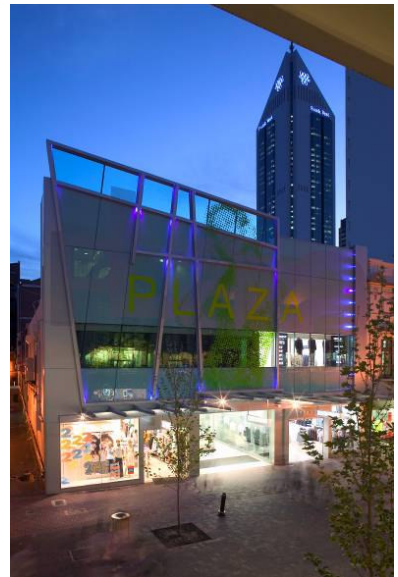

## Plaza Arcade Redevelopment

*Retail Complex*  
*Perth CBD, Western Australia*  
*Project Value: \$5M*

Bollig Design was selected as the Architect to undertake the significant redevelopment of Plaza Arcade, an arcade completed originally in 1936 in the heart of the art deco boom within Western Australia.

The redevelopment of the arcade from a rundown retail facility into a state of the art retail arcade, highlighting the best of contemporary retail design within the context of its art deco heritage, has successfully been implemented contributing substantially to the retail fabric of the CBD.

The building represents the best in architectural outcomes for the fusion of contemporary retail design standards with the heritage art deco architectural existing features.
